

To: Whom it may concern,

We would like to let you know that our entire group known as the Riverbend Bicycle Club unanimously supports this project. This route serves as a major transportation artery right in to the core of our community. To expand and improve this route to include and accommodate all forms of transportation from large trucks all the way down to pedestrians and cyclists can be nothing but a great thing for all of the people in this city. Thanks for giving this your consideration,

Chad Jensen

President,

Riverbend Bicycle Club

Owner,

The Bicycle Station
